PROFESSIONAL SUMMARY

Organized, detail-oriented administrative professional with hospital operating theater clerical experience since 2016, combined with a technical foundation in networking, computer troubleshooting and cyber security. Experienced in documentation and database entry, client communication, cash handling, team coordination and training new staff. Proven contributor to workflow improvement and records management, including integrating a complex filing system to reduce file retrieval time. Currently pursuing a BSc in Informatics Engineering at the University of Technology Bahrain. Seeking administration, operations, coordination, healthcare administration, IT support or entry-level technical roles in Bahrain or remotely.

CORE SKILLS

- **Administration & Operations:** Office administration, documentation processing, data entry, records and filing management, cash handling, customer service, client and phone/email communication
- **Coordination & Leadership:** Training, coaching and supervising new staff; task delegation; workflow analysis and process improvement
- **IT & Technical:** Network problem solving; computer hardware and software troubleshooting; technical support; network traffic analysis; security monitoring, logging and auditing; incident documentation and reporting
- **Software:** Microsoft Office suite
- **Languages:** Arabic (Native), Persian (Native), English (Advanced)

PROFESSIONAL EXPERIENCE

Operation Theater Clerk
Jan 2018 – Present

Al Salam Specialist Hospital | Riffa, Bahrain

- Coordinate with medical and administrative teams to support operating theater operations.
- Train, coach and supervise new staff members.
- Process a wide range of documentation and enter information accurately into hospital databases.
- Handle incoming calls, emails and face-to-face enquiries from clients.
- Accurately handle large amounts of cash on the cash register.
- Help management identify workflow issues and solutions, and propose ideas and new practices to improve efficiency.

Operation Theater Clerk
Jan 2016 – Dec 2017

Ibn Al Nafees Hospital | Bahrain

- Consistently met short- and long-term targets.
- Handled calls, emails, inquiries and face-to-face communication with clients, and supported administrative coordination.
- Processed documentation and entered information into databases.

Sales Executive
Jan 2015 – Mar 2015

iWorld Connect | Manama, Bahrain

- Met clients virtually and during sales visits; provided customer consultations and demonstrated Apple products.
- Maintained accurate sales records, reviewed sales performance and worked towards monthly and annual targets.

Cyber Security Analyst
Sep 2014 – Nov 2014

BATELCO | Bahrain

- Supported malware threat reduction by deploying ad blockers and enabling automatic updates.
- Reduced resolution and reporting time for host-based security system inefficiencies.
- Analyzed data traffic to identify patterns of malicious actors and developed countermeasures.
- Identified on-board and off-board gaps and resolved them by updating organizational procedures.
- Produced security documentation (system security plans, assessment, recovery and contingency reports), high-level security analysis reports and periodic incident status reports that supported client follow-up.

KEY ACHIEVEMENTS

- Integrated a highly complex filing system into the existing one, reducing file retrieval time.
- Delegated tasks to staff to maximize the efficiency of office procedures.
